RG104 E-1 Box 169

Fairmount Ind. Mar. 30th 91.

O. C. Boshyshell, Supt Mint

Dear Sir, Book (report of Mint)
received for which I thank you.
In looking over the report of the
Coinage of the Mints (on pages 262 to
285) I notice there is no silver
dollars reported Coined after 1838 and 1858.
No Half dollars 1796 and 1815, and no
Half dollars Coined at New Orleans mint
in 1838
Quarter None reported for 1824
Dimes none for 1824
Half dimes . . 1804
Nickel and Three Cents in 1877
Two Cents none in 1873 now
Copper Cents . . 1823
Half Cents . . 1832 and none from
1840 to 1848. I have a book ("The Rare
Coins of America,") By Wm Von Bergen,
which I got from the Numismatic Bank
Boston Mass. which claims to give a
complete list of the U. S. Mint Coinage,

RG104 E-1 Box 169

in which it Contradicts all the dates as given above, and offers premiums on nearly all of them. This book also says there were ~~no~~ dimes coined in 1810 and no Half dimes in 1801. The Mint report says there was in both cases, I am collecting Coins for myself and other parties) and would like to have the truth in regard to the dates as given above, as near as you Can give it.

If there was any Coinage for the dates (or a part of them) as given above, please give an amount for Each as near as you Can. And greatly oblige

Box 172 Milton T. Cox

P.S. I expect to send for some proof Coins soon. How would be the best way to have them sent. (say a proof set of Silver and Minor Coins, and maybe a Quarter Eagle) Would they be safe sent registered. please give instructions in regard to ordering proof Coins, in one or more sets, with probable cost of sending. When were the Gold One and Three dollars, and Nickel 3 Cents discontinued.

O.C. Bosbyshell, Supt. Mint

Dear Sir,

Book (report of Mint) received for which I thank you. In looking over the report of the coinage of the Mints (on pages 262 to 285) I notice there is no silver dollars reported coined in 1838 and 1858. (correct) No half dollars 1796 and 1815, and no half dollars coined at New Orleans Mint in 1838. Quarter none reported for 1824.

Dimes none for 1824
Half dimes " " 1804
Nickel Five and Three Cents in 1877
Two Cents none in 1873
Copper Cents " " 1823
Half Cents " " 1832 and none from

1840 to 1848. I have a book ("The Rare Coins of America,") by Wm. Von Bergin, which I got from the Numismatic Bank, Boston, Mass., which claims to give a complete list of the U.S. Mint Coinage, in which it contradicts all the dates as given above, and offers premiums on nearly all of them. This book also says there were dimes coined in 1810 and no half dimes in 1801. The Mint report says there was in both cases. I am collecting Coins (for myself and other parties) and would like to have the truth in regard to the dates as given above, as near as you can give it. If there was any coinage for the dates (or a part of them) as given above, please give amount for each as near as you can. And greatly oblige.
